Topic 4 : Analyzing your expenses

****

Estimate the cost of furnishing your bedroom. Then search the real cost from the internet.

Furnitures	Estimated Cost	Real Cost
Total		

1. Based on your income/salary per month, calculate the 50/20/30 principle

- 50% for living expense ……..
……...……
- 20% for saving ……..
……
- 30% for personal expense …….....
……

2. Analyze your bedroom cost. If you spent all the income with those furnishing cost, how much you will have left for savings and living expenses? How can you keep on track of the 50/20/30 rule?
